Banking & Finance

Access the right banking solutions with clarity and confidence.

Corporate Bank Account

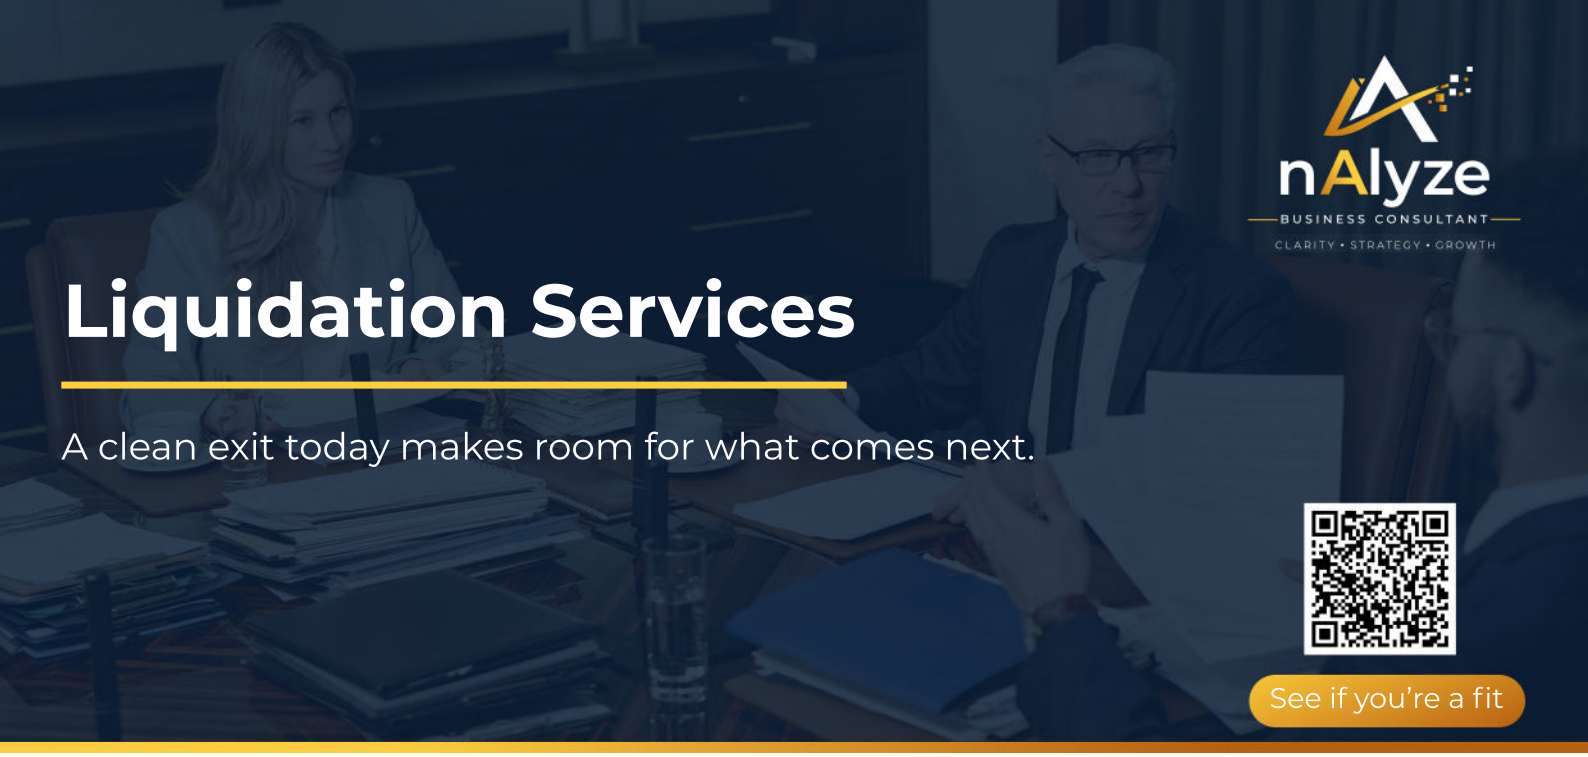

Opening a corporate bank account in the UAE takes more than paperwork. Banks review your trade licence, ownership structure, business activity, and source of funds closely. **nAlyze** prepares a complete, bank-ready application, helps you approach the right banks, and follows up until your account is active.

Non-Resident Investor Account

Opening a non-resident bank account in the UAE requires preparation that most applicants underestimate. Banks assess overseas applicants more closely than residents. **nAlyze** helps international and offshore investors through the process, from documentation and source of funds evidence to liaise directly with the bank.
